Public Hearing

The application of Matthew Popen, 3043 Brockport Road, Spencerport NY 14559 for an area variance to construct 180 linear feet of 6' high closed construction fence at property located at the same; whereas the maximum height allowable is 4" and shall be of open construction. Such variance is pursuant to Chapter 340-32 A (1), respectfully in an R-1 Residential District.

Matthew Popen stated to the Board that the reason for installing the fence was for privacy from a disabled neighbor who wanders on to his property and that his dog is starting to show aggression towards this individual. He has spoken to the father of this child and he understands why they need to put the fence up.

The dog is a boxer and can easily jump a 4 ft fence that is why they are asking for a 6 ft. fence.

The proposed fence will be board on board.

Chairman Dole noted that no one from the neighborhood came to the meeting to speak for or against such variance for the fence.
