Public Hearing

The application of James Barton of Barton's Parkside Hots, 104 West Avenue, Spencerport, New York 14559, for a Special Permit to park a 26' commercial vehicle, on property located at same, whereas, no commercial vehicle having an overall length of 23 feet may be parked in any residential district unless temporarily, in conjunction with a permitted construction project, service, sales, or delivery to the property, pursuant to Chapter 318-5 A in a R-2 Residential District.

Paul Sirianni: I am representing Jim and Debbie Barton of Parkside Hot's as they can't be with you tonight. They are out of town. Jim is a longtime friend of mine and asked me if I would represent so if you have any questions and what can I tell you that you don't already know if you haven't viewed the property. I am familiar with the property and was just recently there with Jim and looked over where he parks his vehicle.

Chairman Dole: Since he got the bread truck has he always parked it there or did he have it someplace else?

Paul Sirianni: To my knowledge it has always been there.

Dale Kellerson: So it is really just the matter that it is three feet longer than what the code says.

Paul Sirianni: Jim has told me that it gets parked there alongside the barn after he uses it. It just comes in an out. It doesn't seem to be very visible from the road. He does have an additional trailer that you were made aware of. It is a motorcycle trailer that's in the driveway for about 5 to 6 months.

Chairman Dole: The bread truck is probably is gone just about every day.

Paul Sirianni: Yes, he uses it about three or four days a week that vehicle is gone. He is pretty booked up.

At this time Chairman Dole closed the Public Hearing.

Chairman Dole then asked Attorney Stowe, Code Enforcement Officer McQuilkin and the board if they have any comments.

Code Enforcement Officer McQuilkin: Like you have discussed here with Paul the truck has been parked there. I have discussed it with Jim when he talked about getting it and after he got it fixed and brought it home and under my suggestion I told him to hold off before coming to you until we figured out the whole schedule of permit fees squared away. Once that was done I spoke with him again and gave him the packet to appear before the zoning board. I have no problem with it.

Dale Kellerson: It is concealed by at least two sides. I just went up Clark Street and you can see it from one of the houses but they must not have an issue because they are not here. So no I don't have any problems with it.

Chairmen Dole: What did he do with it last winter? Was it there?

Patrick Hotchkiss: I live across the street and yes it sits there all winter long.

Chairman Dole: Does he use it in the winter?

Patrick Hotchkiss: Yes, occasionally.

Diana Powell Keery: I don't have any issues and no one is here saying anything against it. So it must not be a problem.

Patrick Hotchkiss: I have a question did he buy the vehicle then seek your approval. All of a sudden it was there.

Code Enforcement Officer McQuilkin: He had talked to me when he was looking to buy it and when we first talked he wasn't sure how long it was. Prior to actually acquiring it he knew how long it was and our stuff was in place and that he would have to come to the board. He also said that if he had to he would find another spot. But it would be a lot more work for him having to move it every day. Bring it home to load it then clean the grills afterwards.
